
Functional Requirements According to the requirements, the Web Pages should have the **following functional requirements**:

- Web Pages with Proper and suitable design.
- Use of HTML, CSS, JavaScript, BootStrap.
- Web Page having Reservation Option
- Different Sections create in every web page.
- Gallery of Images of the resort.
- Header and Footer
- JavaScript Validation.

Technology Specification HTML: HTML code with basic tags like head, body, title. Special Tags used for creating Pages are, o Header o Div o Ul and li o Anchor o Nav o Image o Section o Input o Label o Paragraph **CSS:** It is used to create attractive and interactive Web Pages. Following are the properties, style used in designing: o Font-family,color,size o Position: relative, fixed , Padding: left,right,bottom,top , Btn-outline, btn-uppercase ,Form-control , webkit-transition ,-transition ,-webkit-box-shadow o @media(Change the background color of the element to mentioned color when the browser window is of particular size wide or less) , Z-index(The z-index property specifies the stack order of an element.)

Externally used CSS files are: bootstrap-datepicker.css jquery.timepicker.css , fancybox.min.css ,ionicons.min.css , font-awesome.min.css

BootStrap: Bootstrap is a free and open-source front end development framework for the creation of websites and web apps.

Following Classes of BootStrap are used for making the page Responsive:

- site-navbar js-site-navbar
- site-menu-toggle js-site-menu-toggle
- site-hero inner-page overlay
- form-group
- footer-newsletter
- field-icon-wrap
- btn-primary

Introduction

Coffee is one of the world's most popular beverages. Drinking coffee on a daily basis is a way of life. This is precisely why I am plan on create a webpage of B-Tech Coffee it is static webpages in internet or all over where the people love each other as much as they love their coffee..

I intened to sell freshly brewed coffee using this techniques.Cold drips,French press,cold coffee,brew coffee, and Cappuccion. The products I will be offering include coffee,coffee beans,coffee items and filters and presses etc. The B-Tech Coffee provides Coffee and a welcoming environment for the local community.

- Improve the product awareness.
- Establish B-tech coffee in the industry.
- Local community.

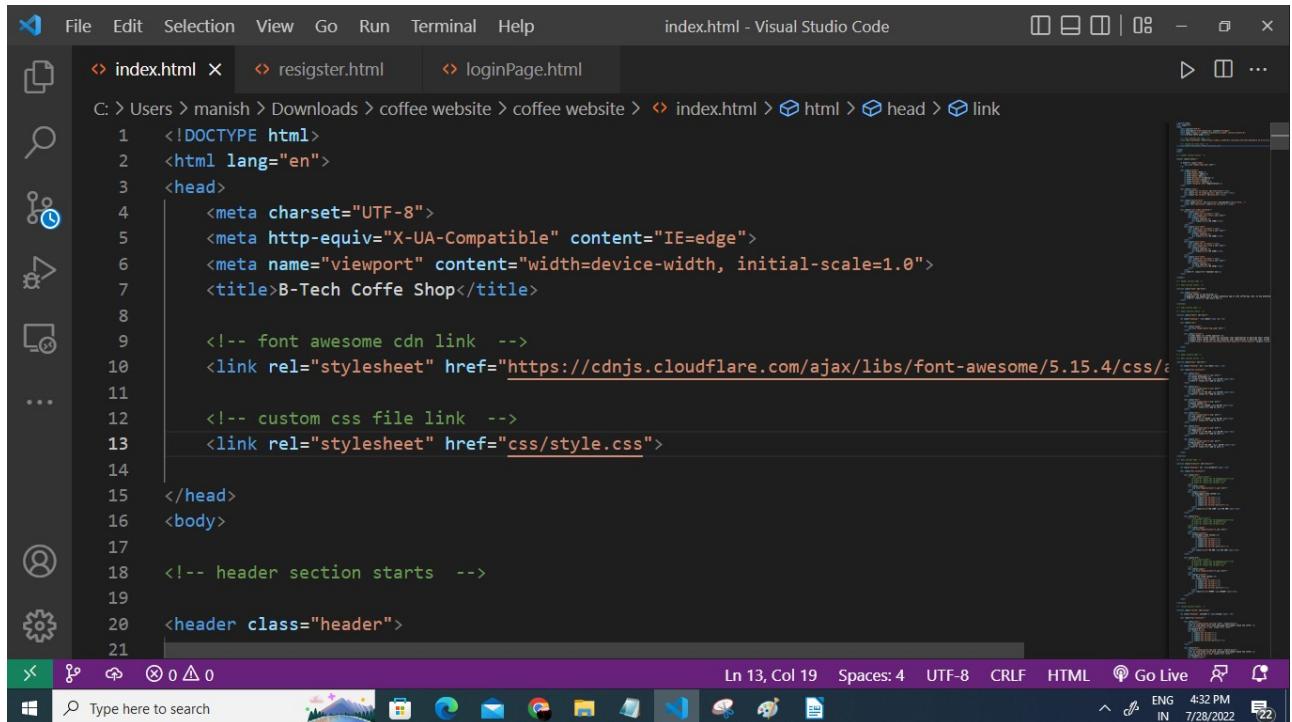

Coffee is one of the world's most popular beverages. Some it is the most widely consumed liquid in the world aside from water.

Coffee is more than a beverage, however. It is a memory, an anticipation, a lifetime of consoling moments of modest pleasure woven into our lives.

Coffee is produced from the seeds of a small red (sometimes yellow) fruit that grows on plants halfway in size between shrub and tree. The process that turns these seeds into beverage is a long and complex process, perhaps the most complex process associated with any major beverage.

Connectivity Html and Css:-

The connectivity link with html and css are. This is first part of the html code which consists of title, document type and links which points out to external script files. Also the Css file is linked to html using style sheet .

```

<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta http-equiv="X-UA-Compatible" content="IE=edge">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">

About us page:-

Create one about page in that page we are add heading what makes our coffee special.
add the two paragraphs the information of coffee.

add one button that button attach the one link another page coffee information.
click that button go to the new page .

Click Learn more

I wanted to take this time to let you know how grateful we are to have you choosing us for your coffee needs. Quality coffee is a passion for me and I am so thankful for your patronage which allows me to do this. I wanted to share a little about our coffees, and why I think they are so special. First of all, we buy our coffee from only the most reputable farms and mills in Kona. Being a teacher in Kona for three decades, I taught some of the farmers and some of their parents too - which goes a long way.

Not too small.

Most boutique coffee companies sell an estate coffee, called this because every bean comes from their estate which may be an acre or two of planted coffee – exactly how we started out. When the beans are picked and dried, they end up in a variety of sizes or grades. These boutique companies roast all beans of varying size together because they cannot afford to waste any beans regardless of quality and they don't have enough beans for it to make sense to separate them into different grades. What you end up with is an inconsistent roast – the larger beans might not be roasted enough, while the smaller beans are roasted too much and taste burnt. Our “Estate” coffee is from a single grade so you get a much more uniform roast at the perfect temperature for that size.

Not too big.

The largest companies must buy huge amounts of coffee bean as cheaply as possible, which typically results in lower quality beans. Low quality beans have less flavor, so these companies roast the coffee darker to hide imperfections in the coffee and eke out as much flavor as possible, regardless of what that flavor ends up being. But the flavor you often taste is over-roasted or burnt. Consider a top grade tuna or beef. Connoisseurs typically prefer these items undercooked than overcooked, so they can enjoy the natural flavors of the cut. Overcooked, you typically end up with a charred piece of meat that's less flavorful and more burnt. Same thing with coffee. If you've ever had Starbucks coffee you might already be familiar with the burnt taste I'm talking about, which they hide with caramel, whip cream, and other goodies. There is nothing wrong with that. It's just not what we

Customers Review :-

Create the customers review page.

Add one paragraph in that provide the customers review.

Add three customers and images.

Add the customers names.

Add the ratings.

The screenshot shows a website with a dark theme. At the top, there is a navigation bar with links: Home, About, Menu, Products, Review, Contact, and Registration. On the right side of the navigation bar are a search icon and a shopping cart icon. Below the navigation bar, the main title 'CUSTOMER'S REVIEW' is displayed in large, bold, white letters. Underneath the title, there are three separate review boxes, each containing a quote mark icon, a small profile picture, the customer's name, and a five-star rating icon. The reviews are identical: 'It Is Nice Place Visit Once And Good Environment Enjoy The Coffe.' The names listed are Sainath B, Vaishnavi K, and Damodhar J. At the bottom right of the page, there is a watermark that says 'Activate Windows' and 'Go to Settings to activate Windows.'

The codeing part of customers review:-

the css style of customers review:-

```
.review .box-container{
    display: grid;
    grid-template-columns: repeat(auto-fit, minmax(30rem, 1fr));
    gap:1.5rem;
}

.review .box-container .box{
    border:var(--border);
    text-align: center;
    padding:3rem 2rem;
}

.review .box-container .box p{
    font-size: 1.5rem;
    line-height: 1.8;
    color:#ccc;
    padding:2rem 0;
}

.review .box-container .box .user{
    height: 7rem;
    width: 7rem;
    border-radius: 50%;
    object-fit: cover;
}

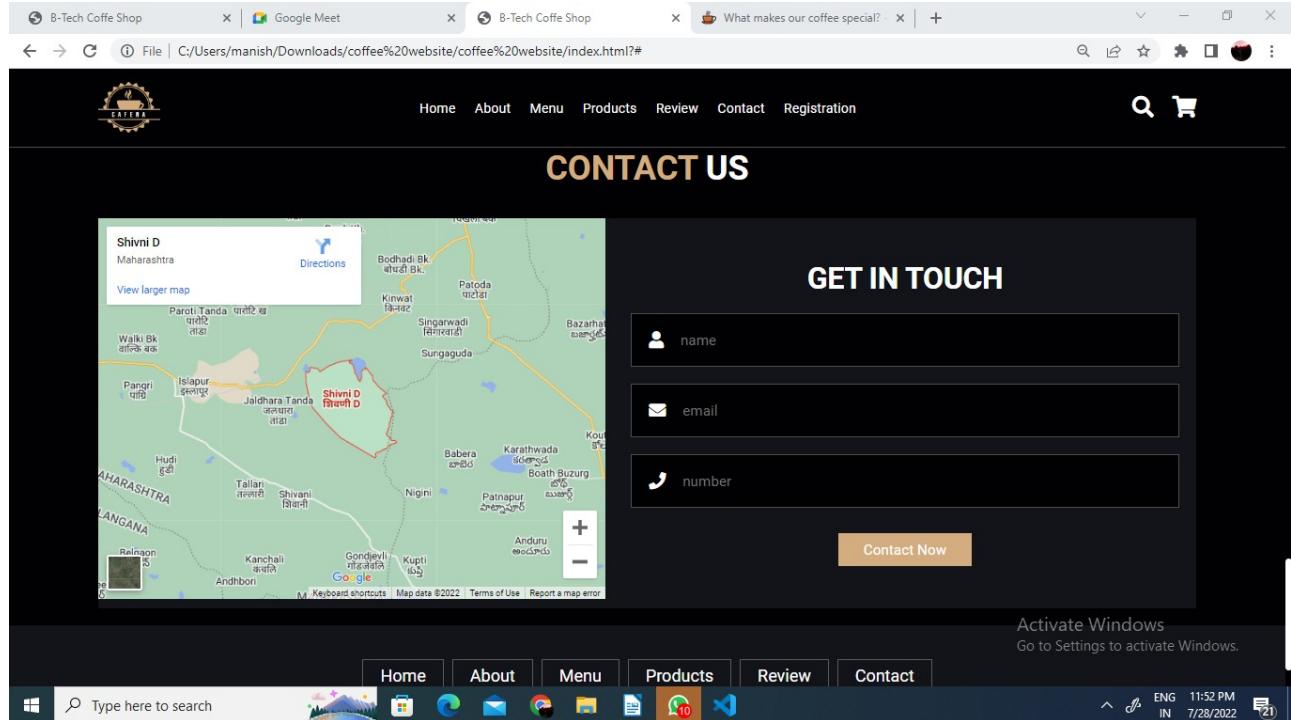

.review .box-container .box h3{
    padding:1rem 0;
    font-size: 2rem;
    color:#fff;
}
```

Contact Us:-

In that contact page create one heading.

Add on google map link locate location near by.

Add on Form add the heading get in touch in that form name field email and number field are added.

That is Contacts us page code :-

The screenshot shows the Visual Studio Code interface with the file `index.html` open. The code editor displays the contact section of a website. The sidebar on the left contains icons for file operations like Open, Save, Find, and Settings. The status bar at the bottom shows the current file path, line number (Ln 175, Col 1), and other settings.

```
<!-- contact section starts -->
<section class="contact" id="contact">
  <h1 class="heading"> <span>contact</span> us </h1>
  <div class="row">
    <!-- <iframe class="map" src="https://goo.gl/maps/FXZ4W4KmWaX5xzvL6" allowfullscreen="" loading="lazy"></iframe> -->

    color:#fff;
    text-transform: none;
    background:none;
}
<
```

Using javascript code create alert of button:-

The screenshot shows the Visual Studio Code interface with the file `index.html` open. The code contains JavaScript functions `fun1()` and `fun2()` that both trigger an alert message. The code is as follows:

```
359
360
361 <!-- custom js file link -->
362 <script src="js/script.js"></script>
363
364 </body>
365 <script>
366     function fun1(){
367         alert("YOUR ORDER IS SAVED. ")
368
369     }
370     function fun2(){
371         alert("we will reach you soon. ")
372
373     }
374 </script>
375
376 </html>
```

The status bar at the bottom shows the file is 376 lines long, in Col 5, with 4 spaces, using UTF-8 encoding, and is an HTML file. It also indicates "Activate Windows" and the date/time "7/29/2022".

Registration Form B-Tech caffee:-

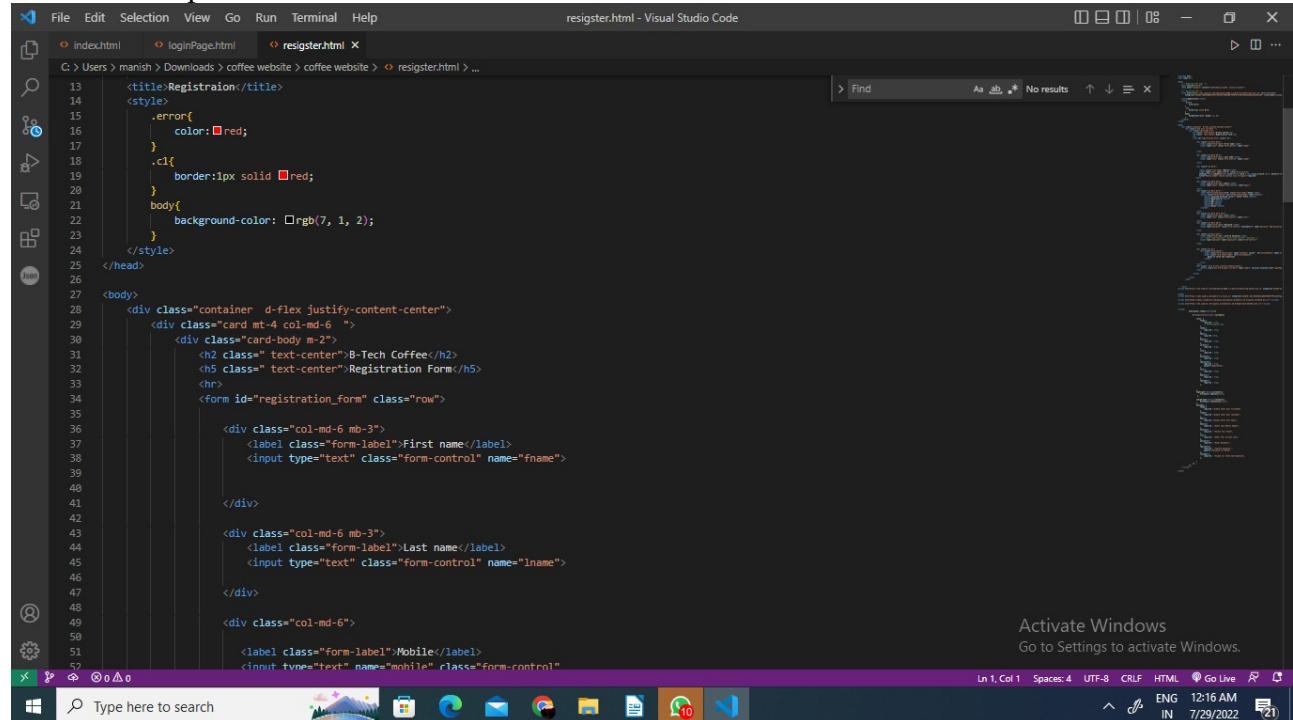

create registration form of add some fields.

Add the name lname,number,mail id,state,password fields.

Add the validates the all fields provide some criterias.

Add on check box field.

Add menudrop field.

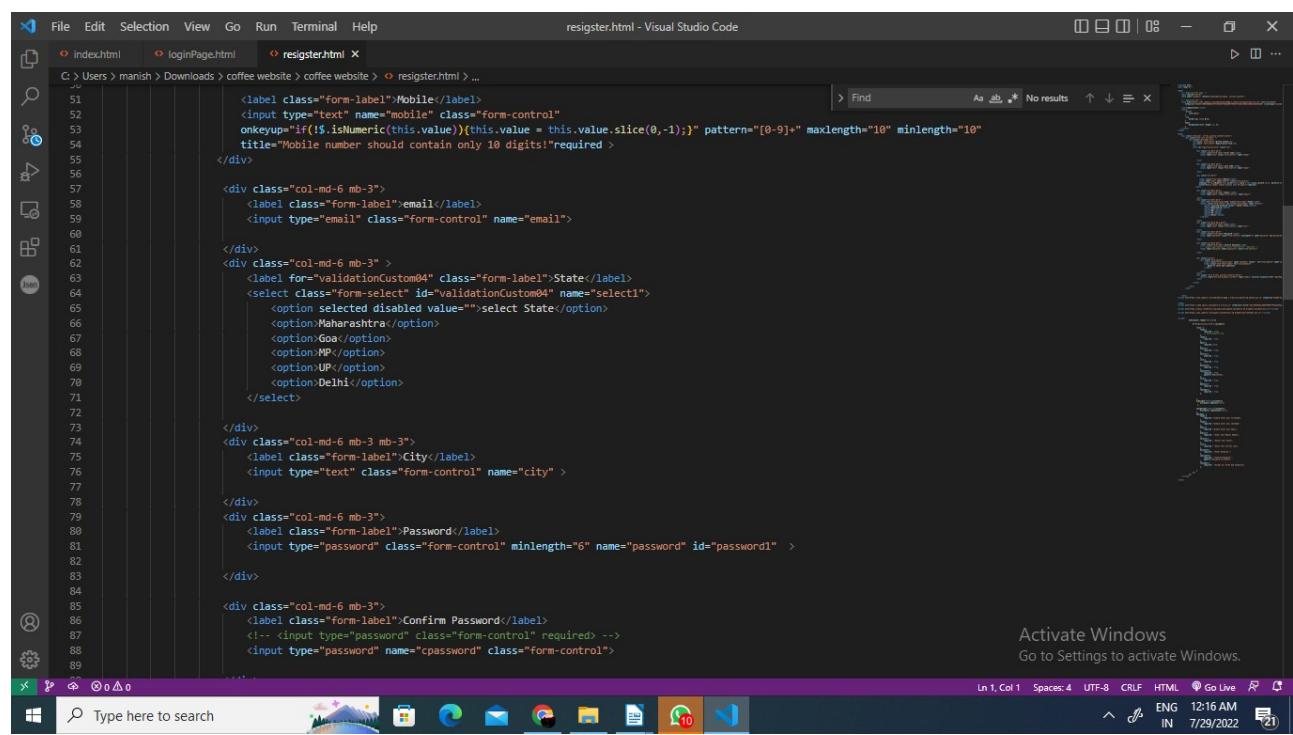

The screenshot shows the Visual Studio Code interface with the file `register.html` open. The code is an HTML form for user registration. It includes a title, styles for error messages, and a container for the form fields. The form itself has sections for First name, Last name, Mobile number, Email, State selection (using a dropdown menu), City input, Password input, and a Confirm Password input. Validation logic is present for the mobile number field, including a regular expression pattern and a required attribute. The status bar at the bottom indicates the file is 1216 AM on 7/29/2022.

```

<title>Registration</title>
<style>
.error{
    color: red;
}
.c1{
    border:1px solid red;
}
body{
    background-color: #rgb(7, 1, 2);
}
</style>

                    </div>
                    <div class="col-md-6">
                        <label class="form-label">Mobile</label>
                        <input type="text" class="form-control" name="mobile" onkeyup="if(!$.isNumeric(this.value)){this.value = this.value.slice(0,-1)}" pattern="^0-9+$" maxlength="10" minlength="10" title="Mobile number should contain only 10 digits! required">
                    </div>
                    <div class="col-md-6 mb-3">
                        <label class="form-label">email</label>
                        <input type="email" class="form-control" name="email">
                    </div>
                    <div class="col-md-6 mb-3">
                        <label for="validationCustom04" class="form-label">State</label>
                        <select class="form-select" id="validationCustom04" name="select1">
                            <option selected disabled value="">select State</option>
                            <option>Maharashtra</option>
                            <option>Goa</option>
                            <option>MP</option>
                            <option>UP</option>
                            <option>Delhi</option>
                        </select>
                    </div>
                    <div class="col-md-6 mb-3">
                        <label class="form-label">City</label>
                        <input type="text" class="form-control" name="city" >
                    </div>
                    <div class="col-md-6 mb-3">
                        <label class="form-label">Password</label>
                        <input type="password" class="form-control" minlength="6" name="password" id="password1" >
                    </div>
                    <div class="col-md-6 mb-3">
                        <label class="form-label">Confirm Password</label>
                        <!-- <input type="password" class="form-control" required> -->
                        <input type="password" name="cpassword" class="form-control" >
                    </div>
                </form>
            </div>
        </div>
    </div>

```

This screenshot shows the same registration form code as above, but with additional validation logic for the mobile number field. A regular expression pattern is used to ensure the input contains only digits. The status bar at the bottom indicates the file is 1216 AM on 7/29/2022.

```

The screenshot shows a Visual Studio Code window with the following details:

- Title Bar:** File, Edit, Selection, View, Go, Run, Terminal, Help, resigster.html - Visual Studio Code
- Left Sidebar:** Shows icons for file operations like Open, Save, Find, and others.
- File Explorer:** Shows files: index.html, loginPage.html, and resigster.html (the active tab).
- Search Bar:** G > Users > manish > Downloads > coffee website > coffee website > resigster.html > ...
- Code Editor:** The code is a JavaScript file for validating a registration form using the jQuery Validate plugin. It defines a validate function for the "#registration_form" selector, setting rules for fname, lname, email, mobile, select1, city, password, cpassword, file, address, and checkbox fields.
- Right Sidebar:** Shows the file structure and a preview of the code.
- Bottom Status Bar:** Activate Windows, Go to Settings to activate Windows, Line 1 Col 1, Spaces: 4, UTF-8, CRLF, HTML, Go Live, and a search bar.

Result:

The webpage coffee look like this

This screenshot shows the homepage of the B-Tech Coffee Shop website. The header features a logo with a coffee cup and the word 'CAFENA'. The navigation menu includes links for Home, About, Menu, Products, Review, Contact, and Registration. A search icon and a shopping cart icon are also present. The main section has a dark background with a large image of a glass cup filled with coffee beans. Overlaid on the image is the text 'FRESH COFFEE IN THE MORNING' in large white letters. Below this, a quote reads: 'Happiness Was Opened With A Single Quotation Mug Of Cafe Coffee Day. But, No One Bothered To Close It, Treasure It, Until It Got Carried Away'. A yellow button labeled 'Get Yours Now' is visible. The bottom of the screen shows a Windows taskbar with various icons and system status.

This screenshot shows the 'ABOUT US' page of the B-Tech Coffee Shop website. The header and navigation menu are identical to the homepage. The main content features a large image of a black coffee cup with steam rising from it. To the right, a section titled 'What Makes Our Coffee Special?' contains two columns of text. The left column discusses the uniqueness of their coffee's flavor profiles. The right column contains promotional text for Windows activation. A 'Learn More' button is located at the bottom of this section. The bottom of the screen shows a Windows taskbar with various icons and system status.

Screenshot of a browser window showing a coffee shop website. The page title is "What makes our coffee special?". The menu section is titled "OUR MENU".

Activate Windows
Go to Settings to activate Windows.

Windows taskbar at the bottom:

- Type here to search
- Icons for File Explorer, Mail, Edge, File Manager, Task View, and others.
- System tray showing ENG IN, 10:54 PM, and 7/28/2022.

A screenshot of a website for "B-Tech Coffe Shop". The header features a logo with a coffee cup and the word "CAFENA", followed by navigation links for Home, About, Menu, Products, Review, Contact, and Registration. A search icon and a shopping cart icon are also present. The main section is titled "CUSTOMER'S REVIEW" in large, bold letters. Three review cards are displayed in a grid. Each card contains two orange speech bubble icons at the top, followed by a testimonial, a user profile picture, the user's name, and a five-star rating. The reviews are identical: "It Is Nice Place Visit Once And Good Environment Enjoy The Coffe.". The users are identified as Sainath B, Vaishnavi K, and Damodhar J, each with a five-star rating.

Conclusion:

In this documentation we have successfully created and uploaded our project/ files from our local system on GitHub . B-tech Caffe webpage has been successfully completed.
